PRESCRIBING INFORMATION

Ceftriaxone for Injection

Anti-infectives | Injectable | Rx only

A third-generation cephalosporin antibiotic for serious systemic bacterial infections.

1. Composition

Active ingredient: Ceftriaxone sodium

Strengths: 500 mg, 1 g, 2 g vials

Route: IV / IM

ATC class: J01DD04

2. Indications

Treatment of serious infections including sepsis, meningitis, and lower respiratory and urinary infections.

3. Dosage and Administration

Dose and route per infection severity and body weight; reconstitute per labeling before administration.

4. Mechanism of Action

Inhibits bacterial cell-wall synthesis by binding penicillin-binding proteins.

5. Warnings and Precautions

- Contraindicated with calcium-containing IV solutions in neonates.
- Assess for cephalosporin and penicillin hypersensitivity.
- Monitor for signs of superinfection.

6. Storage

Store dry powder below 25 deg C, protected from light. Use reconstituted solution promptly.

7. Manufacturer

Mynarix, 2400 Skyline Drive, Suite 120, Mesquite Industrial District, Dallas, TX 75149
