CRP Immunoassay Reagent

A latex-enhanced immunoturbidimetric reagent for quantitative determination of C-reactive protein.

What this product is used for

Quantitative in-vitro determination of CRP in serum and plasma on compatible analysers.

How to use it

Apply on a validated analyser using the provided application sheet; calibrate and run controls per protocol.

Important things to know

- For in-vitro diagnostic use by trained personnel only.
- Follow analyser-specific application parameters.
- Do not mix components from different lots.

Storing this product

Store at 2-8 deg C. Do not freeze. Stable until the stated expiry when unopened.

Questions or concerns

Talk to your doctor or pharmacist. To report a suspected side effect, contact Mynarix at safety@mynarix.com or +1 817 256 2824.
