PRESCRIBING INFORMATION

Montelukast Tablets

Respiratory | Tablet | Rx only

A leukotriene receptor antagonist for the prophylaxis and chronic treatment of asthma and allergic rhinitis.

1. Composition

Active ingredient: Montelukast sodium

Strengths: 4, 5, 10 mg

Pack size: 28 tablets

ATC class: R03DC03

2. Indications

Prophylaxis and chronic treatment of asthma, and relief of symptoms of allergic rhinitis.

3. Dosage and Administration

One tablet once daily in the evening; strength according to age. Not for acute asthma attacks.

4. Mechanism of Action

Blocks cysteinyl leukotriene receptors, reducing airway inflammation and bronchoconstriction.

5. Warnings and Precautions

- Monitor for neuropsychiatric events and advise patients accordingly.
- Not a rescue medication for acute bronchospasm.
- Continue as prescribed even when asymptomatic.

6. Storage

Store below 25 deg C, protected from moisture and light.

7. Manufacturer

Mynarix, 2400 Skyline Drive, Suite 120, Mesquite Industrial District, Dallas, TX 75149
